"In the ruins of the world, survival is not just about fighting the chaos, but conquering the darkness within."

In this intense, atmospheric game, the protagonist finds themselves in the midst of a post-apocalyptic world, where civilization has crumbled and chaos reigns. Struggling with their own personal crisis, the main character frequently visits the dilapidated bars scattered across the desolate city. These bars, once places of comfort and socialization, have now become dangerous, dark refuges where survival is just as important as the alcohol that fuels the protagonist's growing despair.

As the protagonist battles inner demons and the harsh realities of the world around them, they must navigate the treacherous streets, constantly on edge, knowing that danger could strike at any moment. The world has become a battleground, and every decision could mean the difference between life and death. The character's journey through this crumbling city is not just about physical survival, but also about facing their own psychological collapse.

About me

By rooy / April 7, 2025

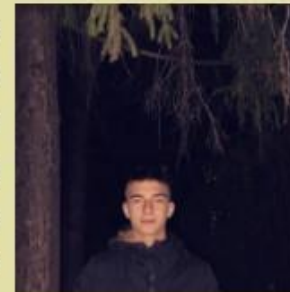

My name is Dragoș Adochitei, I'm 16 years old and I'm a high school student at Spiru Haret in Moinești, where I'm enrolled in the Mathematics and Computer Science program. I'm passionate about technology, logical thinking, and problem-solving, which is why I chose this specialization. I'm always looking for new ways to develop my skills and learn more about programming, mathematics, and how they can be applied in real life.

 I'm a communicative and humorous person who enjoys bringing positive energy to those around me. I'm strong and resilient, able to face challenges with determination, while staying calm and focused. At the same time, I remain modest

Motocross

One of my greatest passions is motocross, especially when it's combined with exploring nature. Riding through forest trails, mountain paths, and open landscapes gives me a deep sense of freedom and adventure. It's not just about the adrenaline or the technical challenge, but also about connecting with the beauty of the natural world. Every ride is a new journey—fresh air, stunning views, and that peaceful feeling you only get when you're far away from the noise of the city. For me, motocross is more than a sport—it's a way

Dancing bear

One of the traditions that has become a true passion for me is the Bear Dance (Dansul Ursului), a unique and powerful part of Romanian folklore. More than just a ritual, it's a symbol of strength, renewal, and cultural identity. I take great pride in being part of this tradition—feeling the rhythm of the drums, wearing the costume, and keeping alive something that has been passed down through generations. For me, it's not just about performing—it's about honoring my roots, staying connected to my culture, and sharing its beauty with others.
